

GENE T8

made in Italy

Germicidal luminaire with direct or indirect light to sanitize any rooms. The device has a reflector and a protection grid.

Body: metal sheet painted RAL 5015
Source: Ozone free lamps low pressure T8 254nm

Dimensions (15W): 500x185x105mm
UV-C: lamp 15W T8 – 254nm
Radiant Power : 4,9W

Dimensions (30W): 1000x185x105mm
UV-C: lamp 30W T8 – 254nm
Radiant Power: 12W

Supply: 230V – 50Hz. Class I
IP: 20
Brand: CE

*CE standard – EMC Directive
ERP Directive – Energy Labelling
ROHS and RAE Directives
EN 60335-2-27
EN 60335-2-2T
EN 60598-1
IEC 61010-2-40
EN 62471*

UV-C radiation is a proven and effective technology for destruction of viruses and microorganisms.

Safety Note: UV-C radiation is not suitable for direct exposure as it can damage the retina and skin.

Engi join in the research of development project “Safe Place. IoT Systems for healthy and safe living environments” (POR 2024-2020 Action 1,1,4 DGR 822/2020) aimed at the study of new devices able to make safe living environments in an anti-covid perspective. Engi, as member of the Luce in Veneto Business Network, participates in the project with the lead consortium ICT4SSL, in partnership with the universities Cà Foscari Venice, University of Padua, University of Verona and 20 other local companies members of RIR ICT4SSL, Veneto Climate and Energy and Venetiam Smart Lighting.
